DONJON MARINE CO., INC. PROVIDES TOWING SERVICES TO DISABLED LNG CARRIER

Hillside, NJ – On February 12, 2008, Donjon Marine, Co., Inc., a provider of multi-faceted marine services including marine salvage, heavy lift, dredging and related emergency response services, was contracted by the ship-owner and the Unified Command at Coast Guard Sector Boston to assist the liquefied natural gas (LNG) tanker *Catalunya Spirit*, which lost propulsion and became disabled and adrift East of Cape Cod.

Donjon provided its 7000-HP salvage tug *Atlantic Salvor* to pick up the disabled ship at the location where she was dead in the water and tow her to safe anchorage. With the tow wire attached until repairs were completed, Donjon stood by until the vessel got underway.

The *Catalunya Spirit* did not suffer structural damage or release any pollutants when it became disabled.
