### **DONJON RESPONDS TO IKE**

Donjon Marine Co., Inc., a provider of multi-faceted marine services including marine salvage, heavy lift, dredging and related emergency response services, was contracted by the U.S. Army Corps of Engineers through the company's salvage and related services contract with the U.S. Navy, Supervisor of Salvage of Diving, to remove and dispose of debris which was a result of Hurricane Ike's trek through Texas. To date, this debris included vessels, containers and upland material, such as sections of houses and local storefronts, which accumulated in the Gulf Intracoastal Waterway just outside Galveston, Texas.

Donjon subcontracted this work with various area-based marine service providers for equipment and labor, while Donjon provided onsite project management, logistical and financial support.

For more information about Donjon Marine Co., Inc., visit [www.donjon.com](http://www.donjon.com).
